EUROAI International Committee

Minutes of the 22 July 2026 Meeting
Held Online

Attendees

- Miruna Zavelca
- Fredrik Niemela
- Melisa Galiba
- Anton Tsypko
- Rastislav Krivoš-Belluš
- Milos Arsic
- Chris Luntraru

Action Items

- Miruna to create feedback form for participants and send to committee for review
- Melisa and Rastislav to formalize meeting notes from first four general assembly discussions
- Miruna to send committee member profile form for optional contact information and pictures
- Milos to provide Serbia photo for website landing page update
- Miruna to update website for 2027
- Milos to coordinate with Serbian ministry and local authorities on dates
- Committee to email countries who had previously shown interest in hosting requesting formal bids for 2029, 2030 and 2031
- Miruna to set up recurring monthly IC meeting

Notes

- CEOAI Team: IC voted unanimously to keep the scoreboard as currently presented, excluding all Romanian participants from country medal statistics and displaying additional contestants as CEOAI Team. Romanian IC representatives recused themselves from voting on participant display decisions (Miruna Zavelca and Chris Luntraru abstained, Bogdan Miron was absent)
- General Assembly Notes and Documentation: Committee recommends formalizing and posting meeting notes from all general assemblies. Notes should receive minimal cleanup rather than full formalization to maintain accuracy

- Feedback form: Feedback form should include a question about participant preference for paper versus digital test statements. Some countries strongly supported paper statements citing improved comprehension research. Paper statements create chain-of-custody and printer logistical challenges
- Website updates: Website will add committee member profiles with optional individual contact information and pictures. The website will include a member archive showing all committee members from current and past years. All information regarding the 2026 edition will move to a dedicated webpage, landing will be updated to show Serbia 2027 with photo but without dates and city until finalized
- 2028 Host Selection: Czech Republic unanimously approved as 2028 host by IC vote. The Czech Republic has ministry support and demonstrated strong preparation and commitment. A representative from the Czech Republic shall be invited to the EUROAI IC and to attend future meetings. All countries interested in hosting future editions should submit formal bids through the official form from the website
- Serbia 2027 planning timeline and constraints: Serbia should try to avoid overlapping with IOI, IAIO, IOAI, CEOI, ICO, IMO, and end-of-year exams. Last week of July and first 2 weeks of August appear open for Serbia 2027
